

# Discover Free Flight

**Two-for-One offer!  
Act Now!**

The National Free Flight Society of the United States, a 501(c)3 non-profit organization, is the world's largest Free Flight interest group. Chartered in 1967 to "preserve, enhance and promote the art, sport and science of Free Flight in all its forms," NFFS is the organization for Free Flight.

## For "half off," you'll be getting a lot more than a great magazine

The National Free Flight Society administers a successful scholarship program which has given tens of thousands of dollars to deserving youths since the 1980s. And there's NFFS Plans service, a collection of more than 800 full-sized Free Flight plans including many hard-to-find oldies and CAD-drawn exclusives.

Your Two-Years-for-One NFFS membership not only gets you America's premier Free Flight publication, it also helps guarantee Free Flight's future. That's right, it's an investment in yourself or, maybe a kid you know. There's never been a better time to "discover Free Flight," for the first time or all over again!

"It doesn't matter if you compete in FAI, FAC mass launch, or even just fly stick and tissue in your backyard. You need to be a member of NFFS."

**Chris Starleaf**  
FAC Grand Champion

"I have been a loyal member for more than 40 years. I'm particularly appreciative of the detailed reporting on world and national competitions as well as the plans of winning models that are often included."

**Jim Richmond**  
8-time World Champion  
Free Flight Hall of Famer
